

26th Annual WG 11.3 Conference on Data and Applications Security and Privacy (DBSec'12)

Institut Télécom, Paris, France. July 11-13, 2012

Call for Papers

The 26th Annual WG 11.3 Conference on Data and Applications Security and Privacy provides a forum for presenting original unpublished research results, practical experiences, and innovative ideas in data and applications security and privacy. Both research papers and panel proposals are solicited. Proceedings will be published by Springer as the next volume in the Research Advances in Database and Information Systems Security series (<http://www.springeronline.com/lncs>). Papers may present theory, techniques, applications, or practical experience on topics of relevance to IFIP WG 11.3:

Access control	Knowledge discovery and privacy	Secure semantic web
Applied cryptography in data security and privacy	Logics for security and privacy	Secure sensor monitoring
Identity theft and countermeasures	Organizational security	Secure web services
Integrity maintenance	Privacy-preserving data management	Risk management
Intrusion detection	Secure transaction processing	Traceability and accountability
	Secure information integration	Trust management

Additional topics of interest include (but are not limited to): Critical Infrastructure Protection, Cyber Terrorism, Information Warfare, Database Forensics, Electronic Commerce Security, and Security in Digital Health Care.

Paper Submissions. Authors are invited to submit their contributions electronically to the conference submission web site at <http://www.easychair.org/conferences/?conf=dbsec2012>. Submission must be in the form of a PDF file. Manuscripts must be in English, typed in 11-point font (minimum), and must not be more than 16 pages long. Manuscripts must have a cover page with title, names and addresses (including e-mail address) of authors, an abstract, and a set of keywords. At least one author of each accepted paper is required to register with the conference and present the paper. Accepted papers will be published in the conference proceedings. The final copy of a paper for the proceedings must use LaTeX, and must be laid out according to the Camera Ready Copy format required by Springer. A submitted paper must not be under review for inclusion in any other conference or journal, and must be substantially different from previously published work. Duplicate submissions will be automatically rejected and without review.

Award for the best student paper: This award will be chosen by the program committee. The student must be the first author to be eligible.

Panel Proposals. Proposals for panels should be e-mailed to the PC chair (dbsec2012@easychair.org). Proposals should include a one-page description of the subject matter, the name and address (including e-mail address) of the organizer, and a list of proposed panelists.
